

Incandescent Rope Light

High quality 12V, 24V, 120V, and 220V rope lights available in 150' rolls. Designed to be field-cuttable for custom installation. Lamps are spaced 1" apart in a solid core flexible tube.

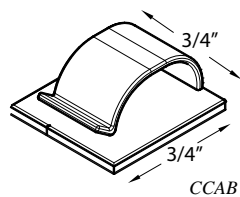

- ✦ Rope lights are designed to be field cuttable on-site for required lengths
- ✦ Solid core for more durability and water resistance
- ✦ Rope lights are bendable for easy installation
- ✦ Low maintenance, low operational costs
- ✦ High lamp density (1" lamp spacing) for high visibility
- ✦ Rope lights available in seven colors, custom voltages and diameters
- ✦ 120V Rope-lite available with CSA/UL listing
- ✦ Rope-lite available in 3/8" and 1/2" diameter
- ✦ Several mounting options available
- ✦ Inexpensive chase lighting options
